ALTERNATIVES TO ANIMAL CHALLENGE TESTS IN THE BATCH CONTROL OF LEPTOSPIRA VACCINES FOR VETERINARY USE

TABLE OF CONTENTS

SESSION I. - GENERAL ASPECTS

CURRENT UNDERSTANDING OF IMMUNITY TO LEPTOSPIRA
C. Bolin, National Animal Disease Center, USDA, Ames, USA

LETOSPIRAL VACCINES BATCH POTENCY TESTING. EUROPEAN MONOGRAPH STATUS REVIEW
P. Marbehant, Pfizer Animal Health, Louvain-la-Neuve, B

INVESTIGATION ON THE TARGET ANIMAL SAFETY TEST FOR THE QUALITY CONTROL OF LEPTOSPIRA VACCINES
A. Poessnecker, Paul Ehrlich Institute, Langen, D

BATCH POTENCY TESTING OF LEPTOSPIRAL VACCINES IN EUROPE: THE HAMSTER CHALLENGE TEST
F. Milward, Mérial, Lyon, F

SESSION II. - DEVELOPMENT OF ALTERNATIVE METHODS TO THE HAMSTER POTENCY TEST BASED ON DIRECT QUANTIFICATION OF VACCINE ANTIGEN (IN VITRO METHODS)

DEVELOPMENT OF IN VITRO ASSAYS FOR MEASURING RELATIVE POTENCIES OF LEPTOSPIRAL BACTERINS CONTAINING SEROVARS POMONA, CANICOLA, GRIPPOTHYPHOSA AND ICTEROHAEMORRHAGIAE
K. Ruby, Center for Veterinary Biologicals, USDA, Ames, USA

ELISA TESTS FOR THE DIRECT QUANTIFICATION OF ANTIGEN IN LEPTOSPIRAL VACCINES AND THEIR USE IN BATCH RELEASE
O. Martinon, Mérial, Lyon, F

ELISA FOR THE QUANTIFICATION OF LEPTOSPIRAL ANTIGENS IN CANINE VACCINES
R. Hartskeerl, Royal Tropical Institute, Amsterdam, NL

LEPTOSPIRAL BACTERIN BATCH POTENCY TESTING
T. Hickey, Fort Dodge Animal Health, Fort Dodge, USA

SESSION III. - DEVELOPMENT OF ALTERNATIVE METHODS TO THE HAMSTER POTENCY TEST BASED ON THE QUANTIFICATION OF ANTIBODIES (SEROLOGICAL METHODS)

THE DEVELOPMENT OF A MONOCLONAL ANTIBODY BASED ELISA FOR MEASURING ANTIBODIES TO CANINE LEPTOSPIRA VACCINES
C. Varney, Central Veterinary Laboratory, Addlestone, UK

DEVELOPMENT OF AN ALTERNATIVE LEPTOSPIRAL POTENCY TEST (ELISA): SOME PRELIMINARY RESULTS FROM THE LABORATORY
H. Schallig, Fort Dodge Animal Health, Weesp, NL

GUINEA PIG SEROLOGY AS AN ALTERNATIVE TO THE HAMSTER CHALLENGE TEST FOR POTENCY TESTING OF LEPTOSPIRA HARDJO VACCINES
E. Ebert, Paul Ehrlich Institute, Langen, D

ELISA FOR THE DETECTION OF ANTI-LEPTOSPIRA IgM AND IgG ANTIBODIES IN SERUM SAMPLES FROM VACCINATED PERSONS
H. Korver, Royal Tropical Institute, Amsterdam, NL

COMPARISON OF THE SEROLOGICAL RESPONSE (MAT AND IMMUNOBLOTS) OF VACCINATED AND CHALLENGED GERBILS AND DOGS
G. André-Fontaine, Ecole Nationale Vétérinaire de Nante, F

CLOSING SESSION

Workshop conclusions and general discussion

BIOGRAPHICAL NOTES
