COUNCIL OF EUROPE CONSEIL DE L'EUROPE

RESOLUTION AP (2000) 1

ON THE CLASSIFICATION OF MEDICINES WHICH ARE OBTAINABLE ONLY ON MEDICAL PRESCRIPTION

(superseding Resolution AP (99) 1)

(Adopted by the Committee of Ministers on 15 March 2000 at the 702nd meeting of the Ministers' Deputies)

AND

APPENDIX I

Alphabetical list of active substances which are subject to prescription, with reference to their ATC classification, adopted by the Public Health Committee (Partial Agreement), 2004 EDITION

APPENDIX II

ATC classification of active substances listed in Appendix I, in alphabetical order, 2004 EDITION

AND

APPENDIX III

Exemption from the obligation to obtain a prescription for certain active substances listed in Appendices I and II, 2004 EDITION

Partial Agreement in the Social and Public Health Field

Resolution AP (2000) 1 5

Appendix I
Alphabetical list of active substances, which are subject to prescription,
with reference to their ATC classification, 2004 Edition 9

Appendix II
ATC classification of active substances, listed in Appendix I, in alphabetical order,
2004 Edition 61

Appendix III
Exemption from the obligation to obtain a prescription for certain active substances
listed in Appendices I and II, 2004 Edition 115

RESOLUTION AP (2000) 1

ON THE CLASSIFICATION OF MEDICINES WHICH ARE OBTAINABLE ONLY ON MEDICAL PRESCRIPTION

(superseding Resolution AP (99) 1)

(Adopted by the Committee of Ministers on 15 March 2000 at the 702nd meeting of the Ministers' Deputies)

The Committee of Ministers, in its composition limited to the Representatives of Austria, Belgium, Cyprus, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, The Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom, member states[1] of the Partial Agreement in the Social and Public Health field,

Recalling Resolution (59) 23 of 16 November 1959, concerning the extension of the activities of the Council of Europe in the social and cultural fields;

Having regard to Resolution (96) 35 of 2 October 1996, whereby they revised the structures of the Partial Agreement and resolved to continue, on the basis of revised rules replacing those set out in Resolution (59) 23, the activities hitherto carried out and developed by virtue of that resolution; these being in particular aimed at:

a. raising the level of health protection of consumers in its widest sense, including the making of a constant contribution to harmonising – in the field of products having a direct or indirect impact on the human food chain as well as in the field of pesticides, pharmaceuticals and cosmetics – legislation, regulations and practices governing, on the one hand, quality, efficiency and safety controls for products, and, on the other hand, the safe use of toxic or noxious products;

b. integrating people with disabilities into the community; defining – and contributing to the implementation at European level – of a model of coherent policy for people with disabilities, which takes account simultaneously of the principles of full citizenship and independent living; contributing to the elimination of barriers to people's integration, whatever their nature, whether psychological, educational, family-related, cultural, social, professional, financial or architectural;

Having regard to the action carried out for several years for the purpose of harmonising their legislation in the public health field and, in particular, in the pharmacy sector;

Considering further that the lack of uniform laws on the supply of medicines restricted to medical prescription has created problems in the field of public health and still raises difficulties at international level;

Considering in particular that the tendency towards auto-medication and over-medication is increasing;

Believing that it is, therefore, increasingly necessary to achieve harmonisation of national laws in this field;

Considering, moreover, that it is important that prescriptions contain certain minimum information so that their authenticity can be verified and it can be ensured that the medicine prescribed is correctly issued and properly used;

Considering that it is also important to harmonise this information, particularly in view of the increase in international travel;

[1] Slovenia has acceded the Partial Agreement in the Social and Public Health field on 1st August 2000.

Bearing in mind the results of the comparative study on the requirements to which prescriptions are subject in the member states of this Partial Agreement;

Pointing out that the aims set out above can be more easily achieved by progressively placing the means derived from the new information and communication technologies at the disposal of health professionals,

1. Recommends to the governments of the member states of the Partial Agreement in the Social and Public Health field that they restrict to medical prescription the supply of the medicines mentioned in the general provisions set out hereafter;

2. Recommends to the same governments that they adopt the general provisions set out below, relating to minimum information to be included in prescriptions;

3. Invites the same governments to accept amendments which may be made later to the appendices[2] to this resolution by the Public Health Committee (CD-P-SP), which shall carry out an annual revision of these lists in the light of the general provisions set out hereafter.

General provisions governing the drawing-up and periodical revision of the list of substances the presence of which in a medicinal product necessitates the delivery of a medical prescription

1. The only substances affected by the recommended provisions are those used in human medicinal products.

2. Narcotic drugs are not referred to when they are already covered by special common provisions concerning the rules governing their supply.

3. This resolution does not apply to homeopathic preparations or to other similar non-allopathic minute dose preparations on the market in the member states. Sale and supply of these preparations are governed by legal provisions in force in each member state.

4. The lists of substances the presence of which in a medicinal product necessitates the delivery of a medical prescription are drawn up with reference to all the risks, direct or indirect, which they may represent to human health if they are utilised without medical supervision, even in a correct way, or if they are utilised in an incorrect way. In particular, the lists of medicinal products are drawn up according to:

a. their acute and chronic toxicity;

b. clinical experience in use (adverse reactions, tolerance, and so on);

c. their intended actions and uses.

Salts, esters and salts of ester are subject to the same classification as the substances themselves unless otherwise specified in the lists.

In cases where several substances are present in a preparation, the classification should take account of the phenomena of synergy (whether potentiating or not), antagonism or changes in the effects of the components.

5. A medicine may not be supplied except on a medical prescription when one or more of the following conditions apply:

a. it contains an active principle not previously used for medical purposes and, in particular, a new chemical molecule. In such cases, a revision of any restrictions shall be carried out within a period of not less than three years from the first date of marketing authorisation in one of the member states of the Partial Agreement;

[2] Appendix I: Alphabetical list of substances.
Appendix II: Anatomic-therapeutic-chemical (ATC) classification of substances in the alphabetical list in Appendix I.

b. it is used parenterally;[3]

c. it contains one or more substances in List I or II[4] in Appendix I hereafter, to which the following criteria apply:

List I

The supply of a medicine containing one of the substances in this list may only be repeated if the prescriber so specifies on the prescription.

List II

The supply of a medicine containing one of the substances in this list may be repeated without the prescribers having so specified, provided that they did not explicitly forbid such repetition and that the amount supplied at renewals (and their frequency) be consistent with the medical and pharmaceutical data (such as the prescribed daily dose, the duration of treatment, the degree of medical supervision required by the condition, and so on).

Exemptions from Lists I and II

For certain substances, exemptions from the "prescription only" requirement may appear in Lists I and II:

- in respect of low dosage or concentration and/or therapeutic indications;
- according to the route of administration and the composition of the medicine;
- according to the total container content.

General criteria for classification on the lists

List I:

- I (1): substances intended for conditions calling for short-term treatment and/or for which continuous medical supervision is necessary, either because of potential side-effects or to check the efficacy of treatment;

- I (2): substances administered for diagnostic purposes;

- I (3) substances with a new pharmacological mechanism of action;

List II:

- substances intended for conditions for which the patient may continue the regular or intermittent treatment without a new medical advice, and for which well-known side effects do not call for frequent clinical examination.

General provisions relating to minimum information to be included in prescriptions

1. The information given in prescriptions should be clear and legible.

2. Prescriptions should include the following minimum information:

- the name, address and, where appropriate, the number of the prescriber;
- the occupation of the prescriber;
- the date of the prescription;
- the hand written signature of the prescriber;
- the name of the patient;
- the age of the patient and, where necessary, details of his or her height and weight;
- the name, dosage and pharmaceutical form of the medicine;
- the amount to be issued;
- instructions for use stating, for example, dosage and length of treatment.

[3] By "parenteral", are intended, in particular, the epidural, extra-amniotic, intra-amniotic, intra-arterial, intra-articular, intrabursal, intracardiac, intracavernous, intracervical, intracisternal, intracoronary, intracutaneous, intradiscal, intralymphatic, intramuscular, intraocular, intraperitoneal, intrapleural, intraspinal, intrasternal, intrathecal, intra-tracheal, intravenous, periarticular, perineural, subconjunctival, subcutaneous use.

[4] The differentiation in the two lists applies only to the countries which divide prescription medicines into two categories based on whether or not the prescription may be repeated.

Preamble to the list of substances the presence of which in a medicinal product necessitates the delivery on medical prescription

1. *Minimum requirements*

The classifications shown are to be considered as minimum requirements; consequently, governments are free to apply stricter rules in any given case.

2. *Classification of substances under special study*

The substances on which further information is requested, or consultation with interested parties is pending, are marked appropriately.

3. *Nomenclature*

Wherever possible, the nomenclature used is that of the International Non-Proprietary Names (INN) of the World Health Organization.

4. *Revisions*

Annual revisions will deal with:

- classification of new substances entering into the composition of medicinal products newly registered in the member states of the Partial Agreement ;

- classification of substances referred to in article 2 of this preamble;

- proposals for adding or deleting substances;

- proposals for adding or deleting derogations;

- proposals for amending exemption conditions.

Proposals for revision will be submitted by 1 January of each year in order to be examined by the competent bodies before 1 July. In cases of urgency, proposals for revision may be submitted at any time.

5. *Date of adoption*

The published list will indicate in each case the year of adoption by the Partial Agreement Public Health Committee.

APPENDIX I

ALPHABETICAL LIST OF ACTIVE SUBSTANCES WHICH ARE SUBJECT TO PRESCRIPTION WITH REFERENCE TO THEIR ATC CLASSIFICATION, 2004 EDITION

Explanations

Abbreviations:

ATC: Anatomical –Therapeutical Chemical (Classification)
DC: Usual common name ("Dénomination Commune")
INN : International non-proprietary name

Notes

The active substances in therapeutic groups B02, J06, which are human blood derivatives, and vaccines (therapeutic group J07) are not included in the Appendices, but are always supplied on prescription and are classified in list I according to criterion I (1).

The active substances are mentioned in an Appendix and assigned a list classification if they have received a marketing authorisation in at least 3 member states of the Partial Agreement.

The ATC code is not mentioned if, under the indications relating to this code, the active substance can be supplied without prescription.

Concerning the classification for the supply of medicinal products for human use, see also the Directive 2001/83/EC, articles 70-75.

APPENDIX II
TO THE RESOLUTION ON THE CLASSIFICATION OF MEDICINES
WHICH ARE OBTAINABLE ONLY ON MEDICAL PRESCRIPTION

ATC CLASSIFICATION OF MEDICINES
APPEARING IN THE ALPHABETICAL LIST IN APPENDIX I

The substances are classified according to the available levels of the Guidelines for ATC classification, 7th edition published by the World Health Organisation Collaborating Centre for Drug Statistic Methodology.

The individual codes are extracted from the "Anatomical Therapeutical Chemical (ATC) classification index, alphabetically sorted according to non proprietary name" January 2005.

A	**ALIMENTARY TRACT AND METABOLISM**
A01	STOMATOLOGICAL PREPARATIONS
A02	DRUGS FOR ACID RELATED DISORDERS
A03	DRUGS FOR FUNCTIONAL GASTROINTESTINAL DISORDERS
A04	ANTIEMETICS AND ANTINAUSEANTS
A05	BILE AND LIVER THERAPY
A06	LAXATIVES
A07	ANTIDIARRHEALS, INTESTINAL ANTIINFLAMMATORY/ANTIINFECTIVE AGENTS
A08	ANTIOBESITY PREPARATIONS, EXCL. DIET PRODUCTS
A09	DIGESTIVES, INCL. ENZYMES
A10	DRUGS USED IN DIABETES
A11	VITAMINS
A12	MINERAL SUPPLEMENTS
A13	TONICS
A14	ANABOLIC AGENTS FOR SYSTEMIC USE
A15	APPETITE STIMULANTS
A16	OTHER ALIMENTARY TRACT AND METABOLISM PRODUCTS
B	**BLOOD AND BLOOD FORMING ORGANS**
B01	ANTITHROMBOTIC AGENTS
B02	ANTIHEMORRHAGICS
B03	ANTIANEMIC PREPARATIONS
B05	BLOOD SUBSTITUTES AND PERFUSION SOLUTIONS
B06	OTHER HEMATOLOGICAL AGENTS
C	**CARDIOVASCULAR SYSTEM**
C01	CARDIAC THERAPY
C02	ANTIHYPERTENSIVES
C03	DIURETICS
C04	PERIPHERAL VASODILATORS
C05	VASOPROTECTIVES
C07	BETA BLOCKING AGENTS
C08	CALCIUM CHANNEL BLOCKERS
C09	AGENTS ACTING ON THE RENIN-ANGIOTENSIN SYSTEM
C10	SERUM LIPID REDUCING AGENTS

D	**DERMATOLOGICALS**
D01	ANTIFUNGALS FOR DERMATOLOGICAL USE
D02	EMOLLIENTS AND PROTECTIVES
D03	PREPARATIONS FOR TREATMENT OF WOUNDS AND ULCERS
D04	ANTIPRURITICS, INCL. ANTIHISTAMINES, ANESTHETICS, ETC.
D05	ANTIPSORIATICS
D06	ANTIBIOTICS AND CHEMOTHERAPEUTICS FOR DERMATOLOGICAL USE
D07	CORTICOSTEROIDS, DERMATOLOGICAL PREPARATIONS
D08	ANTISEPTICS AND DISINFECTANTS
D09	MEDICATED DRESSINGS
D10	ANTI-ACNE PREPARATIONS
D11	OTHER DERMATOLOGICAL PREPARATIONS
G	**GENITO URINARY SYSTEM AND SEX HORMONES**
G01	GYNECOLOGICAL ANTIINFECTIVES AND ANTISEPTICS
G02	OTHER GYNECOLOGICALS
G03	SEX HORMONES AND MODULATORS OF THE GENITAL SYSTEM
G04	UROLOGICALS
H	**SYSTEMIC HORMONAL PREPARATIONS, EXCL. SEX HORMONES AND INSULINS**
H01	PITUITARY AND HYPOTHALAMIC HORMONES AND ANALOGUES
H02	CORTICOSTEROIDS FOR SYSTEMIC USE
H03	THYROID THERAPY
H04	PANCREATIC HORMONES
H05	CALCIUM HOMEOSTASIS
J	**ANTIINFECTIVES FOR SYSTEMIC USE**
J01	ANTIBACTERIALS FOR SYSTEMIC USE
J02	ANTIMYCOTICS FOR SYSTEMIC USE
J04	ANTIMYCOBACTERIALS
J05	ANTIVIRALS FOR SYSTEMIC USE
J06	IMMUNE SERA AND IMMUNOGLOBULINS
J07	VACCINES
L	**ANTINEOPLASTIC AND IMMUNOMODULATING AGENTS**
L01	ANTINEOPLASTIC AGENTS
L02	ENDOCRINE THERAPY
L03	IMMUNOSTIMULANTS
L04	IMMUNOSUPPRESSIVE AGENTS
M	**MUSCULO-SKELETAL SYSTEM**
M01	ANTIINFLAMMATORY AND ANTIRHEUMATIC PRODUCTS
M02	TOPICAL PRODUCTS FOR JOINT AND MUSCULAR PAIN
M03	MUSCLE RELAXANTS
M04	ANTIGOUT PREPARATIONS
M05	DRUGS FOR TREATMENT OF BONE DISEASES
M09	OTHER DRUGS FOR DISORDERS OF THE MUSCULO-SKELETAL SYSTEM
N	**NERVOUS SYSTEM**
N01	ANESTHETICS
N02	ANALGESICS
N03	ANTIEPILEPTICS
N04	ANTI-PARKINSON DRUGS
N05	PSYCHOLEPTICS
N06	PSYCHOANALEPTICS
N07	OTHER NERVOUS SYSTEM DRUGS
P	**ANTIPARASITIC PRODUCTS, INSECTICIDES AND REPELLENTS**
P01	ANTIPROTOZOALS
P02	ANTHELMINTICS
P03	ECTOPARASITICIDES, INCL. SCABICIDES, INSECTICIDES AND REPELLENTS

R	**RESPIRATORY SYSTEM**
R01	NASAL PREPARATIONS
R02	THROAT PREPARATIONS
R03	DRUGS FOR OBSTRUCTIVE AIRWAY DISEASES
R05	COUGH AND COLD PREPARATIONS
R06	ANTIHISTAMINES FOR SYSTEMIC USE
R07	OTHER RESPIRATORY SYSTEM PRODUCTS
S	**SENSORY ORGANS**
S01	OPHTHALMOLOGICALS
S02	OTOLOGICALS
S03	OPHTHALMOLOGICAL AND OTOLOGICAL PREPARATIONS
V	**VARIOUS**
V01	ALLERGENS
V03	ALL OTHER THERAPEUTIC PRODUCTS
V04	DIAGNOSTIC AGENTS
V06	GENERAL NUTRIENTS
V07	ALL OTHER NON-THERAPEUTIC PRODUCTS
V08	CONTRAST MEDIA
V09	DIAGNOSTIC RADIOPHARMACEUTICALS
V10	THERAPEUTIC RADIOPHARMACEUTICALS
V20	SURGICAL DRESSINGS

ATC Code	INN-DC	List of Classification	Status of information

APPENDIX III

EXEMPTION FROM THE OBLIGATION TO OBTAIN A PRESCRIPTION FOR CERTAIN ACTIVE SUBSTANCES LISTED IN APPENDICES I AND II , 2004 EDITION

Exemptions from the obligation to obtain a prescription may be granted to medicinal products containing certain active substances categorised in Lists I and II: in view of

- a low dosage or concentration and/or therapeutic indication,
- the route of administration and the composition of the medicinal product,
- the total content of active substance per pack.

Abbreviations:

Abbreviations used in Appendix III	Explanation	References for Abbreviations*
A	Auricular use	AU Intra-aural/WHO, Intl Drug Monitoring Programme, November 1998
		BU Buccal/WHO, Intl Drug Monitoring Programme, November 1998
C	Cutaneous use, Standard Terms Pharm. Eur., current	-
D	Dental use	DE Dental/WHO, Intl Drug Monitoring Programme, November 1998
INHAL	Inhalation, Standard Terms Pharm Eur., current	-
MS	Maximum Strength: for the purpose of the resolution this is the maximum dose per unit or concentration for which exemption from prescription is allowed	-
MDD	Maximum Daily Dose	-
MQP	Maximum Quantity of active substance per pack for which exemption from prescription is allowed	-
N	Nasal use	ATC WHO, January 2002
O	Oral use	ATC WHO, January 2002
OPH	Ocular use	-
OROPH	Oropharyngeal use, Standard terms Pharm. Eur., current	-
P	Paediatric use	-
POM	On Prescription “prescription only medicine”	-
R	Rectal use	ATC WHO, January 2002
SL	Sublingual use	-
TD	Transdermal use	ATC WHO, January 2002
V	Vaginal use	ATC WHO, January 2002
WP	Without prescription “OTC – Over the Counter”	-

* Abbreviations of administration routes other than referenced or “-” are adapted to the Standard Terms Pharm. Eur., current Edition
