Appendix I Alphabetical list of active substances, which are subject to prescription, with reference to their ATC classification	9
Appendix II ATC classification of active substances, listed in Appendix I, in alphabetical order	73
Appendix III Exemption from the obligation to obtain a prescription for certain active substances listed in Appendices I and II	137

RESOLUTION AP (2000) 1

ON THE CLASSIFICATION OF MEDICINES WHICH ARE OBTAINABLE ONLY ON MEDICAL PRESCRIPTION

(superseding Resolution AP (99) 1)

*(Adopted by the Committee of Ministers on 15 March 2000
at the 702nd meeting of the Ministers' Deputies)*

The Committee of Ministers, in its composition limited to the Representatives of Austria, Belgium, Cyprus, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, The Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom, member states¹ of the Partial Agreement in the Social and Public Health field,

Recalling Resolution (59) 23 of 16 November 1959, concerning the extension of the activities of the Council of Europe in the social and cultural fields;

Having regard to Resolution (96) 35 of 2 October 1996, whereby they revised the structures of the Partial Agreement and resolved to continue, on the basis of revised rules replacing those set out in Resolution (59) 23, the activities hitherto carried out and developed by virtue of that resolution; these being in particular aimed at:

a. raising the level of health protection of consumers in its widest sense, including the making of a constant contribution to harmonising – in the field of products having a direct or indirect impact on the human food chain as well as in the field of pesticides, pharmaceuticals and cosmetics – legislation, regulations and practices governing, on the one hand, quality, efficiency and safety controls for products, and, on the other hand, the safe use of toxic or noxious products;

b. integrating people with disabilities into the community; defining – and contributing to the implementation at European level – of a model of coherent policy for people with disabilities, which takes account simultaneously of the principles of full citizenship and independent living; contributing to the elimination of barriers to people's integration, whatever their nature, whether psychological, educational, family-related, cultural, social, professional, financial or architectural;

Having regard to the action carried out for several years for the purpose of harmonising their legislation in the public health field and, in particular, in the pharmacy sector;

Considering further that the lack of uniform laws on the supply of medicines restricted to medical prescription has created problems in the field of public health and still raises difficulties at international level;

Considering in particular that the tendency towards auto-medication and over-medication is increasing;

Believing that it is, therefore, increasingly necessary to achieve harmonisation of national laws in this field;

Considering, moreover, that it is important that prescriptions contain certain minimum information so that their authenticity can be verified and it can be ensured that the medicine prescribed is correctly issued and properly used;

Considering that it is also important to harmonise this information, particularly in view of the increase in international travel;

Bearing in mind the results of the comparative study on the requirements to which prescriptions are subject in the member states of this Partial Agreement;

¹ Slovenia has acceded the Partial Agreement in the Social and Public Health field on 1st August 2000.

Pointing out that the aims set out above can be more easily achieved by progressively placing the means derived from the new information and communication technologies at the disposal of health professionals,

1. Recommends to the governments of the member states of the Partial Agreement in the Social and Public Health field that they restrict to medical prescription the supply of the medicines mentioned in the general provisions set out hereafter;
2. Recommends to the same governments that they adopt the general provisions set out below, relating to minimum information to be included in prescriptions;
3. Invites the same governments to accept amendments which may be made later to the appendices² to this resolution by the Public Health Committee (CD-P-SP), which shall carry out an annual revision of these lists in the light of the general provisions set out hereafter.

General provisions governing the drawing-up and periodical revision of the list of substances the presence of which in a medicinal product necessitates the delivery of a medical prescription

1. The only substances affected by the recommended provisions are those used in human medicinal products.
2. Narcotic drugs are not referred to when they are already covered by special common provisions concerning the rules governing their supply.
3. This resolution does not apply to homeopathic preparations or to other similar non-allopathic minute dose preparations on the market in the member states. Sale and supply of these preparations are governed by legal provisions in force in each member state.
4. The lists of substances the presence of which in a medicinal product necessitates the delivery of a medical prescription are drawn up with reference to all the risks, direct or indirect, which they may represent to human health if they are utilised without medical supervision, even in a correct way, or if they are utilised in an incorrect way. In particular, the lists of medicinal products are drawn up according to:
 - a. their acute and chronic toxicity;
 - b. clinical experience in use (adverse reactions, tolerance, and so on);
 - c. their intended actions and uses.

Salts, esters and salts of ester are subject to the same classification as the substances themselves unless otherwise specified in the lists.

In cases where several substances are present in a preparation, the classification should take account of the phenomena of synergy (whether potentiating or not), antagonism or changes in the effects of the components.

5. A medicine may not be supplied except on a medical prescription when one or more of the following conditions apply:
 - a. it contains an active principle not previously used for medical purposes and, in particular, a new chemical molecule. In such cases, a revision of any restrictions shall be carried out within a period of not less than three years from the first date of marketing authorisation in one of the member states of the Partial Agreement;

² Appendix I: Alphabetical list of substances.

Appendix II: Anatomic-therapeutic-chemical (ATC) classification of substances in the alphabetical list in Appendix I.

b. it is used parenterally;³

c. it contains one or more substances in List I or II⁴ in Appendix I hereafter, to which the following criteria apply:

List I

The supply of a medicine containing one of the substances in this list may only be repeated if the prescriber so specifies on the prescription.

List II

The supply of a medicine containing one of the substances in this list may be repeated without the prescribers having so specified, provided that they did not explicitly forbid such repetition and that the amount supplied at renewals (and their frequency) be consistent with the medical and pharmaceutical data (such as the prescribed daily dose, the duration of treatment, the degree of medical supervision required by the condition, and so on).

Exemptions from Lists I and II

For certain substances, exemptions from the “prescription only” requirement may appear in Lists I and II:

- in respect of low dosage or concentration and/or therapeutic indications;
- according to the route of administration and the composition of the medicine;
- according to the total container content.

General criteria for classification on the lists

List I:

- I (1): substances intended for conditions calling for short-term treatment and/or for which continuous medical supervision is necessary, either because of potential side-effects or to check the efficacy of treatment;
- I (2): substances administered for diagnostic purposes;
- I (3) substances with a new pharmacological mechanism of action;

List II:

- substances intended for conditions for which the patient may continue the regular or intermittent treatment without a new medical advice, and for which well-known side effects do not call for frequent clinical examination.

General provisions relating to minimum information to be included in prescriptions

1. The information given in prescriptions should be clear and legible.
2. Prescriptions should include the following minimum information:
 - the name, address and, where appropriate, the number of the prescriber;
 - the occupation of the prescriber;
 - the date of the prescription;
 - the hand written signature of the prescriber;

³ By “parenteral”, are intended, in particular, the epidural, extra-amniotic, intra-amniotic, intra-arterial, intra-articular, intrabursal, intracardiac, intracavernous, intracervical, intracisternal, intracoronary, intracutaneous, intradiscal, intralymphatic, intramuscular, intraocular, intraperitoneal, intrapleural, intraspinal, intrasternal, intrathecal, intra-tracheal, intravenous, periarticular, perineural, subconjunctival, subcutaneous use.

⁴ The differentiation in the two lists applies only to the countries which divide prescription medicines into two categories based on whether or not the prescription may be repeated.

- the name of the patient;
- the age of the patient and, where necessary, details of his or her height and weight;
- the name, dosage and pharmaceutical form of the medicine;
- the amount to be issued;
- instructions for use stating, for example, dosage and length of treatment.

Preamble to the list of substances the presence of which in a medicinal product necessitates the delivery on medical prescription

1. Minimum requirements

The classifications shown are to be considered as minimum requirements; consequently, governments are free to apply stricter rules in any given case.

2. Classification of substances under special study

The substances on which further information is requested, or consultation with interested parties is pending, are marked appropriately.

3. Nomenclature

Wherever possible, the nomenclature used is that of the International Non-Proprietary Names (INN) of the World Health Organization.

4. Revisions

Annual revisions will deal with:

- classification of new substances entering into the composition of medicinal products newly registered in the member states of the Partial Agreement ;
- classification of substances referred to in article 2 of this preamble;
- proposals for adding or deleting substances;
- proposals for adding or deleting derogations;
- proposals for amending exemption conditions.

Proposals for revision will be submitted by 1 January of each year in order to be examined by the competent bodies before 1 July. In cases of urgency, proposals for revision may be submitted at any time.

5. Date of adoption

The published list will indicate in each case the year of adoption by the Partial Agreement Public Health Committee.

APPENDIX I⁵

ALPHABETICAL LIST OF ACTIVE SUBSTANCES WHICH ARE SUBJECT TO PRESCRIPTION WITH REFERENCE TO THEIR ATC CLASSIFICATION, 2006 EDITION

Explanations

Abbreviations:

ATC: Anatomical –Therapeutical Chemical (Classification)
DC: Usual common name (“Dénomination Commune”)
INN : International non-proprietary name

Notes

The active substances in therapeutic groups B02, J06, which are human blood derivatives, and vaccines (therapeutic group J07) are not included in the Appendices, but are always supplied on prescription and are classified in list I according to criterion I (1).

The active substances are mentioned in an Appendix and assigned a list classification if they have received a marketing authorisation in at least 3 member states of the Partial Agreement.

The ATC code is not mentioned if, under the indications relating to this code, the active substance can be supplied without prescription.

Concerning the classification for the supply of medicinal products for human use, see also the Directive 2001/83/EC, articles 70-75.

⁵ Amongst the member states who contribute to the information exchange on the legal classification of medicines, Austria, Spain, France, Italy and Switzerland apply the classification of prescription medicines into non-renewable (I) and renewable (II) medicines..

APPENDIX II

TO THE RESOLUTION ON THE CLASSIFICATION OF MEDICINES WHICH ARE OBTAINABLE ONLY ON MEDICAL PRESCRIPTION

ATC CLASSIFICATION OF MEDICINES APPEARING IN THE ALPHABETICAL LIST IN APPENDIX I

The substances are classified according to the available levels of the Guidelines for ATC classification, 7th edition published by the World Health Organisation Collaborating Centre for Drug Statistic Methodology.

The individual codes are extracted from the "Anatomical Therapeutic Chemical (ATC) classification index, alphabetically sorted according to non proprietary name" January 2006.

A	ALIMENTARY TRACT AND METABOLISM
A01	STOMATOLOGICAL PREPARATIONS
A02	DRUGS FOR ACID RELATED DISORDERS
A03	DRUGS FOR FUNCTIONAL GASTROINTESTINAL DISORDERS
A04	ANTIEMETICS AND ANTINAUSEANTS
A05	BILE AND LIVER THERAPY
A06	LAXATIVES
A07	ANTIDIARRHEALS, INTESTINAL ANTIINFLAMMATORY/ANTIINFECTIVE AGENTS
A08	ANTIOBESITY PREPARATIONS, EXCL. DIET PRODUCTS
A09	DIGESTIVES, INCL. ENZYMES
A10	DRUGS USED IN DIABETES
A11	VITAMINS
A12	MINERAL SUPPLEMENTS
A13	TONICS
A14	ANABOLIC AGENTS FOR SYSTEMIC USE
A15	APPETITE STIMULANTS
A16	OTHER ALIMENTARY TRACT AND METABOLISM PRODUCTS
B	BLOOD AND BLOOD FORMING ORGANS
B01	ANTITHROMBOTIC AGENTS
B02	ANTIHEMORRHAGICS
B03	ANTIANEMIC PREPARATIONS
B05	BLOOD SUBSTITUTES AND PERFUSION SOLUTIONS
B06	OTHER HEMATOLOGICAL AGENTS
C	CARDIOVASCULAR SYSTEM
C01	CARDIAC THERAPY
C02	ANTIHYPERTENSIVES
C03	DIURETICS
C04	PERIPHERAL VASODILATORS
C05	VASOPROTECTIVES
C07	BETA BLOCKING AGENTS
C08	CALCIUM CHANNEL BLOCKERS
C09	AGENTS ACTING ON THE RENIN-ANGIOTENSIN SYSTEM
C10	SERUM LIPID REDUCING AGENTS

D DERMATOLOGICALS
D01 ANTIFUNGALS FOR DERMATOLOGICAL USE
D02 EMOLLIENTS AND PROTECTIVES
D03 PREPARATIONS FOR TREATMENT OF WOUNDS AND ULCERS
D04 ANTIPRURITICS, INCL. ANTIHISTAMINES, ANESTHETICS, ETC.
D05 ANTIPSORIATICS
D06 ANTIBIOTICS AND CHEMOTHERAPEUTICS FOR DERMATOLOGICAL USE
D07 CORTICOSTEROIDS, DERMATOLOGICAL PREPARATIONS
D08 ANTISEPTICS AND DISINFECTANTS
D09 MEDICATED DRESSINGS
D10 ANTI-ACNE PREPARATIONS
D11 OTHER DERMATOLOGICAL PREPARATIONS

G GENITO URINARY SYSTEM AND SEX HORMONES
G01 GYNECOLOGICAL ANTIINFECTIVES AND ANTISEPTICS
G02 OTHER GYNECOLOGICALS
G03 SEX HORMONES AND MODULATORS OF THE GENITAL SYSTEM
G04 UROLOGICALS

H SYSTEMIC HORMONAL PREPARATIONS, EXCL. SEX HORMONES AND INSULINS
H01 PITUITARY AND HYPOTHALAMIC HORMONES AND ANALOGUES
H02 CORTICOSTEROIDS FOR SYSTEMIC USE
H03 THYROID THERAPY
H04 PANCREATIC HORMONES
H05 CALCIUM HOMEOSTASIS

J ANTIINFECTIVES FOR SYSTEMIC USE
J01 ANTIBACTERIALS FOR SYSTEMIC USE
J02 ANTIMYCOTICS FOR SYSTEMIC USE
J04 ANTIMYCOBACTERIALS
J05 ANTIVIRALS FOR SYSTEMIC USE
J06 IMMUNE SERA AND IMMUNOGLOBULINS
J07 VACCINES

L ANTINEOPLASTIC AND IMMUNOMODULATING AGENTS
L01 ANTINEOPLASTIC AGENTS
L02 ENDOCRINE THERAPY
L03 IMMUNOSTIMULANTS
L04 IMMUNOSUPPRESSIVE AGENTS

M MUSCULO-SKELETAL SYSTEM
M01 ANTIINFLAMMATORY AND ANTIRHEUMATIC PRODUCTS
M02 TOPICAL PRODUCTS FOR JOINT AND MUSCULAR PAIN
M03 MUSCLE RELAXANTS
M04 ANTIGOUT PREPARATIONS
M05 DRUGS FOR TREATMENT OF BONE DISEASES
M09 OTHER DRUGS FOR DISORDERS OF THE MUSCULO-SKELETAL SYSTEM

N NERVOUS SYSTEM
N01 ANESTHETICS
N02 ANALGESICS
N03 ANTIEPILEPTICS
N04 ANTI-PARKINSON DRUGS
N05 PSYCHOLEPTICS
N06 PSYCHOANALEPTICS
N07 OTHER NERVOUS SYSTEM DRUGS

P ANTIPARASITIC PRODUCTS, INSECTICIDES AND REPELLENTS
P01 ANTIPROTOZOALS
P02 ANTHELMINTICS
P03 ECTOPARASITICIDES, INCL. SCABICIDES, INSECTICIDES AND REPELLENTS

R RESPIRATORY SYSTEM
R01 NASAL PREPARATIONS
R02 THROAT PREPARATIONS
R03 DRUGS FOR OBSTRUCTIVE AIRWAY DISEASES
R05 COUGH AND COLD PREPARATIONS
R06 ANTIHISTAMINES FOR SYSTEMIC USE
R07 OTHER RESPIRATORY SYSTEM PRODUCTS

S SENSORY ORGANS
S01 OPHTHALMOLOGICALS
S02 OTOLOGICALS
S03 OPHTHALMOLOGICAL AND OTOLOGICAL PREPARATIONS

V VARIOUS
V01 ALLERGENS
V03 ALL OTHER THERAPEUTIC PRODUCTS
V04 DIAGNOSTIC AGENTS
V06 GENERAL NUTRIENTS
V07 ALL OTHER NON-THERAPEUTIC PRODUCTS
V08 CONTRAST MEDIA
V09 DIAGNOSTIC RADIOPHARMACEUTICALS
V10 THERAPEUTIC RADIOPHARMACEUTICALS
V20 SURGICAL DRESSINGS

APPENDIX III

EXEMPTION FROM THE OBLIGATION TO OBTAIN A PRESCRIPTION FOR CERTAIN ACTIVE SUBSTANCES LISTED IN APPENDICES I AND II

Exemptions from the obligation to obtain a prescription may be granted to medicinal products containing certain active substances categorised in Lists I and II: in view of

- a low dosage or concentration and/or therapeutic indication,
- the route of administration and the composition of the medicinal product,
- the total content of active substance per pack.

Abbreviations:

Abbreviations used in Appendix III	Explanation	References for Abbreviations*
A	Auricular use	AU Intra-aural/WHO, Intl Drug Monitoring Programme, November 1998
		BU Buccal/WHO, Intl Drug Monitoring Programme, November 1998
C	Cutaneous use, Standard Terms Pharm. Eur., current	-
D	Dental use	DE Dental/WHO, Intl Drug Monitoring Programme, November 1998
INHAL	Inhalation, Standard Terms Pharm Eur., current	-
MS	Maximum Strength: for the purpose of the resolution this is the maximum dose per unit or concentration for which exemption from prescription is allowed	-
MDD	Maximum Daily Dose	-
MQP	Maximum Quantity of active substance per pack for which exemption from prescription is allowed	-
N	Nasal use	ATC WHO, January 2002
O	Oral use	ATC WHO, January 2002
OPH	Ocular use	-
OROPH	Oropharyngeal use, Standard terms Pharm. Eur., current	-
P	Paediatric use	-
POM	On Prescription "prescription only medicine"	-
R	Rectal use	ATC WHO, January 2002
SL	Sublingual use	-
TD	Transdermal use	ATC WHO, January 2002
V	Vaginal use	ATC WHO, January 2002
WP	Without prescription "OTC – Over the Counter"	-

* Abbreviations of administration routes other than referenced or "-" are adapted to the Standard Terms Pharm. Eur., current Edition
