

European Pharmacopoeia – Related products and services

The European Directorate for the Quality of Medicines & HealthCare (EDQM) ensures the safety and quality of medicines in Europe and beyond.

European Pharmacopoeia

The legally binding reference for medicines in Europe, ensuring harmonised quality standards for pharmaceuticals worldwide.

Reference standards

Essential substances for verifying compliance with European Pharmacopoeia monographs, distributed to laboratories and manufacturers in over 130 countries.

Certification

A recognised certification procedure streamlining regulatory approval for pharmaceutical ingredients, accepted throughout Europe and beyond.

Events

Unique opportunities to interact directly with the EDQM, experts and key speakers from around the world to learn more about the European Pharmacopoeia and related subjects.
