

**PHARMACOPOEIAL DISCUSSION GROUP****CODE: E-01****NAME: ALCOHOL, ETHANOL (96 PER CENT), ETHANOL****CORRECTION OF SIGN-OFF COVER SHEET** (Previous Corr 2 sign-off on June 26, 2014)**Harmonised attributes**

Attribute	EP	JP	USP
Identification A, B	+	+	+
Appearance	+	+	+
Acidity or alkalinity	+	+	+
Relative density	+	+	+
Absorbance	+	+	+
Volatile impurities	+	+	+
Residue on evaporation	+	+	+
Storage	+	+	+

**Legend:** + will adopt and implement ; – will not stipulate**Definition and Relative density**

Each pharmacopoeia specifies a different range for the content; the values for relative density vary accordingly and, in addition, are expressed at different temperatures.

**Non-harmonised attributes**

Characters/Description (EP, JP)

**Local requirements:**

EP	JP	USP
Second Identification (ID tests C and D), list of impurities	Shelf life, Containers	Identification test: Limit of methanol*, Clarity of solution, Color of solution

\*The identification test of limit methanol refers to the harmonized test for volatile impurities.

**Reagents and reference materials**

Each pharmacopoeia will adapt the text to take account of local reference substances and spectra and reagent specifications.

Each pharmacopoeia will consider actual titrant concentration in equations according to their local rules of calculation for titration.
