

**WEBINAR 'KEEP CALM AND USE YOUR QMS TO CARRY ON: TISSUE BANKING IN THE  
NEW NORMALITY'  
1 July 2020, 15:00 - 16:00 (CEST)**

**Chaired by**

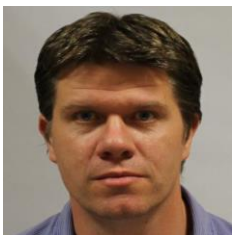

**Akila CHANDRASEKAR**, Joint UK Blood Transfusion and Tissue Transplantation Services Professional Advisory Committee (JPAC), (UK), Co-Chair of the Council of Europe European Committee on Organ Transplantation, and the Guide to the Quality and Safety of Tissues and Cells for Human Application.

**Jacinto SÁNCHEZ-IBÁÑEZ**, Director at the Tissue Establishment and Cryobiology Unit of the University Hospital of A Coruña (Spain), Co-Chair of the Guide to the Quality and Safety of Tissues and Cells for Human Application, and President of the European Association of Tissue and Cell Banks (EATCB).

**Speakers**

**Johan GUNS** has been active in the field of human cell and tissue banking and quality assurance for more than 20 years. He works at the University Hospital Vrije Universiteit Brussel (Belgium) as Head of the Department of Quality of the medical laboratories, tissue banks and biobanks and is also the Manager of the centralised biobank at the University Hospital Vrije Universiteit Brussel. Since 2019 he is a Visiting Professor at Vrije Universiteit Brussel.

**Richard LOMAS** is a clinical scientist who has been working in the field of tissue banking for 25 years. He works for NHS Blood and Transplant Tissue and Eye Services in the UK, and his specialist areas are development, validation and implementation of novel processing protocol for allografts, and clinical evaluation and follow up.
