

# European Pharmacopoeia

## 9<sup>th</sup> Edition

### Publication schedule and general information

The 9<sup>th</sup> Edition (including Supplement 9.7) contains 2399 monographs (including dosage forms), 364 general texts (including general monographs and methods of analysis) and about 2720 descriptions of reagents.

Commission Sessions		Edition/ Supplement	Publication schedule	Corrections to be taken into account as soon as possible and not later than	Implementation date
Session No.	Date				
153	November 2015	9 <sup>th</sup> Edition*	July 2016	31 August 2016	1 January 2017
154	March 2016	9.1	October 2016	30 November 2016	1 April 2017
155	June 2016	9.2	January 2017	28 February 2017	1 July 2017
156	November 2016	9.3	July 2017	31 August 2017	1 January 2018
157	March 2017	9.4*	October 2017	30 November 2017	1 April 2018
158	June 2017	9.5	January 2018	28 February 2018	1 July 2018
159	November 2017	9.6	July 2018	31 August 2018	1 January 2019
160	March 2018	9.7*	October 2018	30 November 2018	1 April 2019
161	June 2018	9.8	January 2019	28 February 2019	1 July 2019
162	November 2018	10 <sup>th</sup> Edition*	July 2019	31 August 2019	1 January 2020

\* The printed version includes a cumulative list of reagents.

The **printed** supplements are **not cumulative** and are to be kept for the duration of the 9<sup>th</sup> Edition. Technical modifications (revisions/corrections) to texts are indicated by a **line in the margin**: a vertical line indicates where part of a text has been revised or corrected; a horizontal line indicates where part of a text has been deleted.

The **electronic** supplements are **cumulative**. Technical modifications are placed between **green triangles** to indicate where part of a text has been revised or corrected, while **scissors** indicate where part of a text has been deleted.

For further information, consult the Key to monographs ([printed](#) and [electronic](#) versions).

Each new edition or supplement of the European Pharmacopoeia is usually published 6 months before its implementation date.

**From the 9<sup>th</sup> Edition, corrections are to be taken into account as soon as possible after publication and not later than the end of the month following the month of publication (see the publication schedule above).**

Individual copies of texts will not be supplied.

With each publication of a new edition or supplement, information concerning the technical modifications that were made to revised texts is available under 'Useful information' in [Pharmeuropa Online](#).

Information on the main modifications made to each text since the 5<sup>th</sup> Edition of the European Pharmacopoeia is available in the [Knowledge](#) database, via the '*History*' link.

This information completes the modifications indicated by lines in the margin in the printed version and green triangles in the electronic version, and therefore is not necessarily exhaustive.

For certain texts, additional information may also be available in the [Knowledge](#) database via the '*Additional information*' and '*Practical information*' links.

A list of new reagents published during the course of the 9<sup>th</sup> Edition is available under 'Useful information' in [Pharmeuropa Online](#).

Subscribers to the current version (printed or electronic) of the European Pharmacopoeia have access to an online **archive version** of all previous editions of the European Pharmacopoeia.

Subscribers to the print version can obtain further information on a text (e.g. the [Knowledge](#) database) via the barcode at the top of each text (requires a smartphone/tablet with a camera and a barcode reader app).

*For ordering or prices, see [EDQM store](#).*
